Notice of Intent To Prepare a Draft Environmental Impact Statement on the General Management Plan for Little River Canyon National Preserve, Alabama

SUMMARY: The National Park Service will prepare an Environmental Impact Statement (EIS) to accompany its General Management Plan (GMP) for Little River Canyon National Preserve.

The Service invites suggestions for issues to be considered and ideas for resolving the issues.

DATES: Scoping suggestions should be submitted on or before January 1, 1998 to ensure adequate consideration by the Service.

ADDRESSES: Superintendent, Little River Canyon National Preserve, P.O. Box 45, Fort Payne, Alabama 35967, Telephone: (205) 997-9239.

SUPPLEMENTARY INFORMATION: In 1995, the National Park Service began the preparation of an Environmental Assessment (EA) on the GMP.

This included scoping for the EA. The National Park Service has announced that an EIS on GMPs will be prepared for all park units. To comply with this policy, a formal scoping period is announced.

Comments are invited on any issue believed to be relevant to Preserve management and should be submitted to the Superintendent whose address is given above. No public scoping meeting will be held. We urge that comments be made in writing. Issues may be suggested for the Service to consider during its planning as well as suggestions for resolution. Issues currently being considered include the preservation of water quality and quantity, the preservation and management of the Preserve's natural features and cultural resources, identification of resource compatible recreational pursuits, and infrastructure needs. Central to these issues is the determination of the Preserve's mission—its purpose and significance. The plan will identify desired conditions for resources and visitor experiences for various management units within the Preserve. A draft GMP/EIS will be prepared and presented to the public for review and comment followed by preparation and availability of the final GMP/EIS.
